PROFILE

I am a Flutter Developer with a strong background in mobile application development, particularly in creating high-quality cross-platform applications. With over a year of experience, I have cultivated a keen understanding of integrating RESTful APIs and Firebase services while ensuring optimal UI/UX design. I am dedicated to improving my skills and remain up-to-date with the latest developments in mobile technology

----

PROFESSIONAL EXPERIENCE

GenixBit Labs Pvt Ltd - Ahmedabad
Jr. Flutter Developer

Aug 2024 – May 2025

- Developed and deployed cross-platform mobile applications using Flutter
- Collaborated with UI/UX designers and backend developers to deliver high-performance applications
- Participated in agile development cycles, performing bug fixes and implementing feature enhancements

PROJECT EXPERIENCE

Mira Monet – A Marketplace for Artists   3 Month

- Designed and developed a dual-platform mobile application for artists and users to upload, showcase, and sell artwork
- Built a secure marketplace for direct and private artwork sales with real-time chat support
- Optimized performance and successfully launched the app on both the App Store and Google Play Store

E-Commerce App with Live Streaming Feature 6 Month

- Integrated live streaming functionality to enhance customer engagement for an e-commerce app
- Designed responsive UI screens tailored for live interaction
- Used zego_uikit_prebuilt_live_streaming for live stream creation, participation, and management
- Enabled real-time communication between influencers and viewers
